

CHARTER (cheap) FLIGHTS

There are direct Charter Flights to/from Corfu from many European countries with low Budget cost. Whether you're traveling with colleagues for business, or flying the family on vacation a charter flight or a last minute flight is often the most practical way to get there. However, these are only available between April till October on certain days of the week and may limit your travel options. To help you make the best decisions when organising your trip to attain the best quality/price ratio we operate through an experienced and knowledgeable large local Agency. If you are interested in booking a Charter or last minute flight, please contact us:
